

Moon Clip System – How to

It is not that difficult 😊

I want to use the awesome Moon Clip system... what do I need?

You need:

Article No.: **18617** - Moon Clip Set for **6mm** BB's

OR

Article No.: **18618** - Moon Clip Set for **4.5mm** BB's

Depending on the Dan Wesson model you have – you will also need:

- 1. I have a Dan Wesson 715 with serial no. 16Kxxxx, 16Lxxxx, 16Mxxxx or higher**
(2017 models will start with 17Axxxx and so on)
You will need: Nothing else
- 2. I have a Dan Wesson 715 with serial no. 16Jxxxx, 16Ixxxx, 16Hxxxx or lower**
(2015 models does not exist)
You will need: Article No.: 18620 – Moon Clip compatible drum
A installation guide is available next page
- 3. I have a Dan Wesson revolver (Not 715 series)**
You will need: Article No.: 18752 – Moon Clip (blue color)

That is it – You are ready for high speed reload 😊

Moon Clip System – How to

It is not that difficult 😊

How to replace the drum on Dan Wesson 715

Tools needed:

- Phillips PZ0 Screwdriver
- 10mm Flat screwdriver
- Plier
- Cloth
- Moonclip compatible drum
#18620 silver
#18753 Steel grey

Disclaimer
this guide is intended as a help for dismantling this specific model. This is not a complete manual on how to repair or doing service. ASG can not be held liable for any problems occurring with the use of this guide. It is strongly recommended that dismantling an airsoft product is done by experienced personnel.

- Release the drum latch and grab the drum axle with the pliers using the cloth to prevent scratches.
- While firmly holding the axle, twist/rotate the drum until it becomes loose. Do not remove the axle yet.
- Turn the rear sight screw counter clockwise 3 full rotations.

- Remove the left grip/co2 capsule cover to reveal all screws.
- Use the PZ0 screw driver to remove the 4 screws for the receiver cover plate.

Moon Clip System – How to

It is not that difficult 😊

- Remove the cover plate.
- Unscrew the loosened drum axle completely and remove it.
- Now the drum can be removed from the drum arm.

- Replace the original drum with the new Moon clip compatible drum using parts from original drum.
- If you get the drums mixed up, then it is the one with the large diameter on the recess, which is correct.
- Reverse the process you just went through in this guide, to re-assemble the gun.
