## Safety and Precautions

1. When using an external power supply, use a 5V adapter with a current of 0.5A or more.
2. Battery version: Charge the battery at least every 2 months when the tracer is not used to avoid completely discharging the battery. The defect of completely discharging the battery is not covered by warranty, lasts approximately 24 hours on a full charge.
3. Avoid using the B.B. to accidentally hit the panel and buttons during use to avoid LCD or button damage.
4. Automatic shutdown and low voltage shutdown protection.
5. Keep a certain distance from the chronograph when using Gas/CO2 blow back guns & Gel blaster to avoid disturbed readings.

AC6000MKIII Series	Chronograph Bag x 1	User Manual x 1
		
	Type C Charging Cable x1	18650 Lithium Battery x 1

- ✘ **Chronograph Bag:** only available for AC6000MKIII BT [Exclusive Edition]
- ✘ **With battery version:** already installed in the machine,  
**Without battery version:** please purchase by yourself.

## Feature Locations

1. AC6000MKIII Series models are AC6000 MKIII, AC6000MKIII BT and AC6000MKIII BT Exclusive Edition; the details are as follows:

	AC6000MKIII	AC6000MKIII BT	AC6000MKIII BT (Exclusive Edition)
Bluetooth	✗	✓	✓
Shooting Tube	Plastics	Plastics	Aluminum
Chronograph Bag	✗	✗	✓

2. Display: 240x240 pixel LCD.

3. AC6000MKIII Series:

## Function settings

1. SCR1: Muzzle Velocity, ROF, Energy and AMMO quick selection function.

※ When measuring ROF, you must fire more than 10 rounds.

2. SCR2: Provides 25 latest continuous firing speed and muzzle velocity test data for users to analyze the performance of BB guns.

The diagram shows the SCR2 display with 25 rounds of speed information:

SN	RPS	m/s	MAX
19	16.3	152.4	16.3
18	16.3	152.4	154.6
17	16.3	153.3	
16	16.3	152.5	MIN
15	16.3	152.6	16.1
14	16.3	153.2	151.4
13	16.3	153.6	AVG
12	16.2	151.7	16.2
			152.8

25 Rounds of Speed Information

Note: The upper column of MAX, MIN, and AVG is the continuous launch speed, and the lower column is the initial speed.

※ Use the up and down key to view 25 rounds of speed measurement data.

※ Clearing the History: Press and hold the up button for 3 seconds to clear the history.

3. SCR3:

## SCR 1

## SCR 2

## SCR 3

## MENU: Function Setting Screen

### • AMMO: B.B. Parameter Setting

A total of 5 groups can be set, and the weight (g) and diameter (mm) of each group can be set.

### • UNIT:

- 1) **ROF:** RPM: Round Per Minute  
RPS: Round Per Second
- 2) **SPEED:** m/s (meters/seconds)  
ft/s (feet/seconds)
- 3) **WEIGHT:** gram (g)  
grain (gr) (1 grain=0.0648gram)
- 4) **ENERGY:** joule  
ft-lb

## SCR 1

## SCR 2

## SCR 3

## MENU: Function Setting Screen

### • APO: Automatic Shut Down Setting

- 1) APO can be set to automatically shut down when not in use for 5 to 60 minutes to save power.
- 2) USB APO ON/OFF APO function can be turned on or off when using USB power.

**Note:** When the battery reaches low voltage, it will automatically shut down to protect the lithium battery.

### • BRIGHTNESS: LCD Brightness Setting

- 1) ADJUST: Adjustment range: 0 ~ 10
- 2) Set to the Default Value  
(Note: The default value is 6.)

## SCR1

## SCR2

## SCR3

## MENU: Function Setting Screen

- **ALARM: Energy / Velocity Upper Limit and Warning**
  - 1) ENERGY: joule
  - 2) SPEED: m/s

✘ **When the energy and Muzzle Velocity the upper limit, a red warning will appear on the screen.**

- **RESET: Restore to Factory Settings**
  - 1) RESET AC6000: Restore to factory value
  - 2) Version display
  - 3) Serial number display

## APP operation instructions

※ APP operation instructions: For AC6000MKIII BT & AC6000MKIII BT (Exclusive)

1. Go to the APP store and search for AceSoft and install it.

2. Start APP, AC6000MKIII BT and mobile phone Bluetooth.
3. Please refer to the figure below for the first time use. Click on the AC6000MKIII BT icon and a reminder icon will appear during pairing. At this time, press the AC6000BT power button to complete the pairing. (APP system display AC6000 BT = AC6000MKIII BT).

- After the pairing is successful, you will see the following screen. The gray area is the speed measurement result.
- From left to right, the blue boxes above are No/Time switch, RPS/RPM switch, m/s and ft/s, and Joule/ft-lb/(J/cm<sup>2</sup>).
- The orange blocks on the right from the top to the bottom are respectively Ammo 1 ~ 6 for selection to test at the highest speed/RPS, average speed/RPS and lowest speed/RPS.
- From left to right in the green box below, the shooting data is stored, the shooting data is cleared, and the data chart is switched.

The screenshot shows the AC6000 BT-1001 app interface. At the top, there is a title bar with a back arrow, the device name 'AC6000 BT-1001', and a battery icon. Below the title bar is a blue control bar with four icons: a double circle (No/Time switching), a bullet (RPS/RPM switching), a speedometer (m/s and f/s), and a lightning bolt (Joule/ft-lb/(J/cm<sup>2</sup>)). Below the blue bar is a table of speed measurement results. To the right of the table are four orange blocks representing ammo selection (6.0m m, 0.2g), highest speed/RPS (MAX 20.3, 167.5), average speed (AVG 11.6, 161.0), and minimum speed/RPS (MIN 10.2, 3.3). At the bottom is a green bar with three icons: a save icon (Shooting data), a trash can (Clearing the shooting data), and a chart icon (Data chart switching).

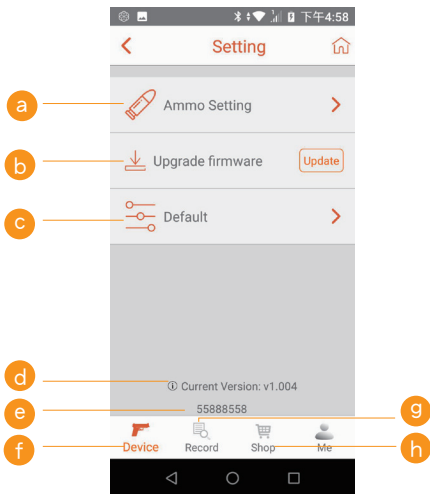

32	10.2	165.0	2.72	Ammo 6.0m m
31	10.2	166.6	2.78	0.2g
30	10.3	164.6	2.71	MAX
29	0.0	164.6	2.71	20.3
28	16.6	165.2	2.73	167.5
27	20.3	165.4	2.74	AVG
26	20.3	165.3	2.73	11.6
25	20.3	165.0	2.72	161.0
24	20.3	166.2	2.76	MIN
23	20.3	165.9	2.75	10.2
				3.3

- Tap the icon on the top right of the screen to enter the setting page.

9. The setting page is as follows:

- a) Ammunition can be set. 
- b) Updating the device  (you can upgrade here if new firmware is released).
- c) Restore to the default. 
- d) The current version of the device.
- e) The current serial number of the device.
- f) Device;  tap to jump to the homepage.
- g) Records;  read the pre-stored shooting data.
- h) Shop;  tap to enter the ACETECH homepage.

## Specifications

1. Muzzle velocity measurement range: 30.00 ~ 400.0 (m/s).
2. ROF(Rate Of Fire ) measurement range: 100 ~ 5000 (rounds/minute).
3. The diameter of shooting gate is 36mm, which is suitable for 4.5mm, 6mm, 9mm and 8mm B.B. specifications currently on the market.
4. 1/4" tripod mounting hole.
5. Using 18650 lithium battery.
6. Size: 130 (L) x 108 (W) x 61 (H) mm.
7. Weight: AC6000MKIII BT: 285g (without battery).  
AC6000MKIII BT Exclusive: 317g (without battery).

## Warranty

1. Warranty does not include damage from incorrect usage, external force or liquid intruding inside the product.
2. Any incorrect usage caused liquid intruding inside will be not covered by the warranty.
3. Please refer to Acetech official website for the detailed warranty date.

## FEDERAL COMMUNICATIONS COMMISSION INTERFERENCE STATEMENT

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

### CAUTION

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

### RF Exposure Warning

The equipment complies with RF exposure limits set forth for an uncontrolled environment. The antenna(s) used for this transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.
