

TECHNICAL DESCRIPTION

PROFI DEO SHOE 150 ML

OP9000

Product type	a deodorant containing nanoparticles of silver and silicon dioxide
Volume	150 ml

Physical and chemical characteristics:

Composition	benzyl salicylate containing silver and silica nanoparticles
Safety	<p>- the product is classified as dangerous</p> <p>F+ extremely flammable</p> <p>Do not eat or drink when handling the product, then wash your hands with suitable cleaning agents.</p> <p>The product does not contain substances dangerous for inhalation, but in case of symptoms of poisoning, move the affected person from the contaminated environment to fresh air.</p> <p>The product is not classified as hazardous in contact with the skin. However, if contact occurs, remove contaminated clothing and rinse the skin with cold water using neutral soap.</p>
State	aerosol
Colour	yellowish
Odour	characteristic
Flammability	extremely flammable aerosol
Density	0,9 kg/m ³
Storage	The product must be stored in its original packaging at a temperature of +5 to +30 °C. Do not store in direct sunlight or near heat sources and in contact with food. Avoid contact of the substance with open flames, sparks and hot surfaces. Prevent the formation of static electricity.
Firefighting measures	multi-purpose powder extinguisher, foam extinguisher, carbon dioxide (CO ₂) It is not recommended to extinguish with water.
Logo	black logo BENNON
Marking	label
Weight	140 g/pc
