

◆ Princeton Tec MPLS系列说明书

01 MPLS系列 / 01 MPLS series

- ◆ 包括头盔和MOLLE系统在内,能简单快速地安装使用
Easily and quickly install on helmet and MOLLE system
- ◆ 金属弹性臂可以旋转45度,光线无处不在
The metal elastic arm can be rotated 45 degrees, illuminate around
- ◆ 各种模式: 低/高光和红外 (NE 05012无IR功能)
Variety of Modes: Low/High light and IR (NE 05012 without IR function)
- ◆ 使用CR2016 (3V) 纽扣电池* 2
Powered by CR2016(3V)*2
- ◆ 材料: 树脂聚合物和金属
Material: Resin polymer and Metal
- ◆ 外观颜色: BK/DE/FG
Color: BK/DE/FG

◆ MPLS头盔蛇形灯多功能安装底座

Multi-function mounting bases of MPLS helmet snake-shaped light

- ◆ ACH-ARC头盔安装底座
ACH-ARC helmet mounting base
- ◆ MOLLE系统安装底座
MOLLE system mounting base
- ◆ 20mm皮卡丁尼导轨安装底座
20mm Picatinny rail mounting base
- ◆ MICH头盔安装底座
MICH helmet mounting base

◆ 多功能底座使用示范图例

Demonstration diagram of Multi-function bases

◆ 电池安装

Battery installation

◆ 本体和底座的安装

Installation of the body and base

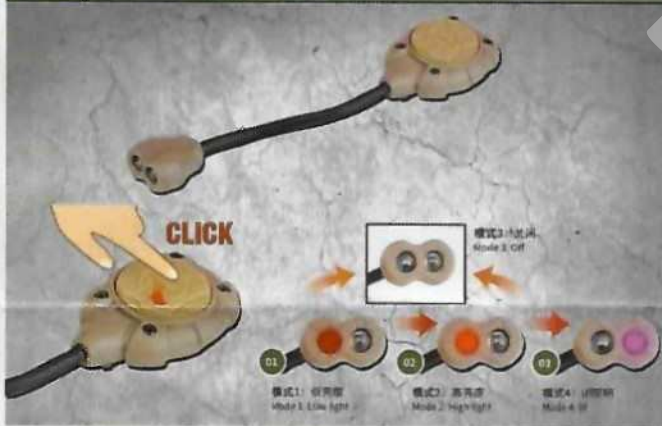

G0406

◆ NE 05012 Princeton Tec MPLS (1 LED)
(Green / Red / White)

- ◆ 01. 点击开关，等待1秒钟后，LED低亮启动，然后短按开关，等待1秒后，LED关闭。
Click on the switch, after 1 second, LED low light on, then a short press on the switch, after 1 second, LED off.
- ◆ 02. 低亮模式或待机模式下，连续快速开关两次，LED将切换到高亮，然后按下开关，LED关闭。
At the mode of low light or standby, press the switch continuously and fast twice, LED will switch to high light, then a short press on the switch, LED off.

◆ NE 05009 Princeton Tec MPLS2 (2 LED)
(Green+IR / Red+IR / White+IR)

- ◆ 01. 点击开关，等待1秒钟后，LED低亮启动，然后短按开关，等待1秒后，LED关闭。
Click on the switch, after 1 second, LED low light on, then a short press on the switch, after 1 second, LED off.
- ◆ 02. 低亮模式或待机模式下，连续快速开关两次，LED将切换到高亮，然后按下开关，LED关闭。
At the mode of low light or standby, press the switch continuously and fast twice, LED will switch to high light, then a short press on the switch, LED off.
- ◆ 03. 在任何情况下，长按开关2秒：红外线灯启动，然后短按开关，红外线灯关闭 (NE 05012没有IR)。
In any case, press switch for 2 seconds: IR light on, then a short press on the switch, IR light off (NE 05012 without IR).

◆ NE 05015 Princeton Tec MPLS3 (3 LED)
(WHITE+GREEN+IR / WHITE+RED+IR)

- ◆ 01. 点击开关，等待1秒钟后，LED低亮启动，然后短按开关，等待1秒后，LED关闭。
Click on the switch, after 1 second, LED low light on, then a short press on the switch, after 1 second, LED off.
- ◆ 02. 低亮模式或待机模式下，连续快速开关两次，LED将切换到高亮，然后按下开关，LED关闭。
At the mode of low light or standby, press the switch continuously and fast twice, LED will switch to high light, then a short press on the switch, LED off.
